THE MEETING POINT
WHERE STRENGTH IS UNITY

THE TRADESHOW FOR WELDING AND ANOTHER JOINING TECHNOLOGIES

1 - 2 December 2027
FICOBA | Gipuzkoa | Spain

ficobaunire.org

UNIRE is the tradeshow for the value chain of welding and removable and non-removable multi-material joining technologies

A single gathering that includes several events:

- 1 UNIRE, the welding and joining technologies tradeshow
- 2 Programme of panel sessions on the latest topics in the sector
- 3 3rd UNIRE Welding Competition

Why exhibit at UNIRE?

- ✓ **Access to trade visitors:** buyers and prescribers of welding services
- ✓ Obtain **business contacts**
- ✓ **Brand positioning** in the sector
- ✓ Tools to facilitate **networking**
- ✓ Customer **loyalty**
- ✓ You will be part of the **campaign** in social media and specialised and general media

And also to...

Showcase your
new products

Foster
new business

Gain notoriety
within the industry

Facilitate synergy
generation

Attract talent

Foster new
business exchanges

Share challenges
and trends
in the sector

Increase the level
of exposure
of your brand

Why a trade show specialised in welding and joining technologies?

The industry is faced with the challenge of improving efficiency and productivity throughout the entire value chain. UNIRE focuses on welding and joining technologies. These operations are an essential part of many aggregate value chains, and they can sometimes account for up to 50% of manufacturing costs.

Welding and joining technologies are present in a huge percentage of industrial products, and their quality is vital to the reliability of the end product. This is a cross-cutting sector with application in practically all industrial processes, from the automotive, rail, shipbuilding and aerospace sectors to wind power generation and metal transformation, among others.

UNIRE is the ideal place to discover the latest sector developments helping small, medium and large companies to optimise and improve their processes.

Why at Ficoba, Gipuzkoa's Exhibition Centre?

Much of Spain's industry is concentrated in the Basque Country. The area is characterised by a powerful industrial culture, and welding and other joining technologies are important processes in its local industries. It also has state-of-the-art technology centres and cutting-edge researchers and organisations working to boost industry, research and training in systems and technologies.

UNIRE aspires to become the specialist hub for welding and joining technologies that will bring together welding service user companies from the northern half of Spain and other highly industrialised areas in the rest of the country.

Ficoba's cross-border scope also makes the UNIRE trade show an excellent meeting point for supplier companies and potential customers from South West France.

Who is exhibiting?

Manufacturers/ Distributors of welding and cutting equipment and products	Manufacturers/ Distributors of consumables, industrial gases and filling and deposition materials	Adhesives	Safety and protection equipment	Suppliers of industrial support services	Cutting, welding, transformation, forming, repair and automated solutions
Approval and certification — Engineering companies	Inspection and testing — Advisory services	Training — Sector associations	Metrology and sensor technology	Surface technology and heat treatment	Welding and joining technology R&D

Who visits UNIRE?

Decision-makers and purchasers of welding services from companies in the following sectors:

Automotive, rail, aerospace and shipbuilding manufacturers	Metal processing	Boilermaking	Public works machinery	Power generation	Construction of metal structures and installations Industrial assembly
Sub-contracting companies	Maintenance and repair companies	Capital goods manufacturers	Offshore platforms	Specialised training centres	

UNIRE is the only national tradeshow dedicated exclusively to the joining of materials and their technologies

Two days for presenting new developments, networking and creating new relationships and business deals.

WHAT WILL YOU FIND AT UNIRE?

Exhibition area

Participate as an exhibitor at the fair to gain access to new customers, boost your sales and differentiate yourself from the competition

Product demonstrations

Showcase your key products

Networking cocktail

The ideal time to make connections in a relaxed atmosphere

Conference area

Programme of round tables on the latest news in welding and joining technologies

APP

Visitor identification app

Welding competition

Coordinated by CESOL, the 3rd UNIRE Welding Competition will be held for welding students and young professionals
